Twitter: <https://twitter.com/635register>

So, a busy 2015 is coming to an end and thoughts are turning to Christmas.

There has been a big rise in social media traffic again and particular in global interest in the Register Facebook page, with new members joining from all corners of the globe.... We even sold a grille badge to someone in Mexico through the eBay sales page!

Don't forget you can purchase any Christmas regalia from our Ebay page:

http://www.ebay.co.uk/usr/mg63_uk2015 and clothing from Top signs:

<http://www.mgcc.co.uk/shop/product/topsigns/>

Sales have gone well this year, which has allowed us to purchase a new feather banner and some pull up banners. If there's anything that you would like us to stock, please do let us know.

We have also raised a lot of money for Prostate Cancer UK through Ebay sales, raffles and sponsorships in 2015, which looks like beating our £500 target that was set. Its still not too late to Sponsor the Chairman's leg wax, which is taking place on 10th December!!

There have been lots of existing MG owners joining the MG6 and 3 ranks over the last few months, partly due to the very warm welcome received in both the Regions and Registers for the latest MGs.

Stu and Bev Forbes picked up their new MG3 Style Lux from Normandy garage in November. They are long time MG owners and took part in the MGF Somerset and Dorset run from Rich's Cider farm to Shepton Mallet. It took us a while, but we knew we'd assimilate them eventually!

There has also been a lot of interest in modifications for the MG3 recently, with now a choice of stainless steel exhausts, lowering springs and various other accessories. There are some very enthusiastic owners out there who are very keen to squeeze some more power, torque and speed out of the standard MG3, as well as more personalisation.

MG Motor have been busy, they have announced a £2000 trade in discount on new MG3s and 6s, as well as announcing a revised MG3 offering customers better fuel consumption, lower tax and an updated personalisation range; which includes the launch of new combinations and roof colours. The supermini, which now benefits from a more economical 124g/km of CO₂ and a stop-start engine EU6 engine, also comes with a new chrome grille to complement the MG family face. Hopefully we'll see some more cars on the roads and new members in the Register.

Have a fantastic Christmas and New Year and thanks you to everyone that has supported the mg 635 Register in 2015!

60 3NJOY!
