2014 has been a busy year for the 6.3.5. Register, with lots of events going on and plenty of discussion and swapping of ideas between owners through the social media and forum pages. There have been quite a few highlights throughout the year with some great stories and photos from the BTCC manufacturer's win and European forays to social gatherings and shows. There are exciting times ahead in 2015 with the Register being closely involved with MG Motor in Customer feedback and events.

A list of the Register's supported events for 2015 will be published on the Facebook page and available by e-mail as requested. Please feel free to suggest some more, plus any regional gatherings or ideas.

It will be interesting to see what happens in the BTCC next year with the current 3 year deal at an end. The MG6 has been a very successful machine over the last 3 years and we will definitely see the model racing next year. We all hope that MG can put together a competitive works racing package with some exciting drivers.

Quantel Bifold with Marc Hynes at the wheel has improved all year and is set to continue his improvements for 2015 and we wish him well.

The levels of ownership and members of the Register are increasing daily due to the successful sales figure from the MG3 and the knock on effect with the MG6. 2015 looks set to continue in growth for MG Motor. For the year to date, the Longbridge firm has sold a total of 2,028 cars, a huge increase on last year's equivalent figure of 309. They are also steadily growing the dealer network throughout the country.

We had our AGM on 6<sup>th</sup> December, with a social gathering and talk by Ian Pogson at MG Motor HQ at Longbridge followed by our Christmas meal. More details to follow next month on this. A Happy New Year from all of us at the 6.3.5 Register!
