

Watch Midget & Sprite Challenge LIVE at Brands Hatch

Are you ready for the race season to begin? We at MySuperCar certainly are, and we could not be happier to announce that for the first time, you will be able to watch the opening rounds of the thrilling [Lackford Engineering Midget and Sprite Challenge](#) LIVE from Brands Hatch on the 24/25th April with us.

As the only exclusively 'Spridget' race series in the UK and with five classes, it means the racing action is intense with so many stories behind the scenes that will get you classic car juices flowing.

Thanks to MySuperCar's revolutionary 'F1 Style Media to Club Circuit' broadcast style, you will not only get to watch and listen to qualifying and the races from a flexible point, but you will also get to meet the drivers, see the cars up close, and engage LIVE by asking questions, requesting content and features on any device from any location.

Ian Waterhouse – MySuperCar Founder

"I am so happy to be working with the Lackford Engineering Midget and Sprite Challenge, I have been close to the cars for some time with our time with the MG Car Club and have been desperate to get the live camera on to them, meet the drivers, tell the stories, and create engaging content, and now we finally can! It's going to be a blast!"

Mike Parker – Lackford Engineering Midget and Sprite Challenge

"I have been impressed with MySuperCar's live streaming of the Metros and the V8s at the M.G.C.C race meetings and enjoyed, so I think it's time we put the Lackford Midget and Sprite Challenge on the screen so more members can enjoy our fantastic series."

How can I watch?

We are the only live stream broadcaster in the UK to stream on Facebook, YouTube, AND Twitch.

You will be able to watch all the exhilarating action from Brands Hatch on the Midget and Sprite Facebook page along with MySuperCar on both YouTube and Facebook.

However, we have launched our brand-new channel '[Live Sport Now](#)' allowing you to watch all of our LIVE motorsport and golf broadcasts all in one place.

Simply choose which platform you want to watch by clicking below and liking/subscribing/following the page and you will be notified when we go LIVE so you never have to miss any of our live free-to-air sport.
