

# CAPTAIN CASTOR

ANSWERS ALL YOUR T TYPE QUERIES!

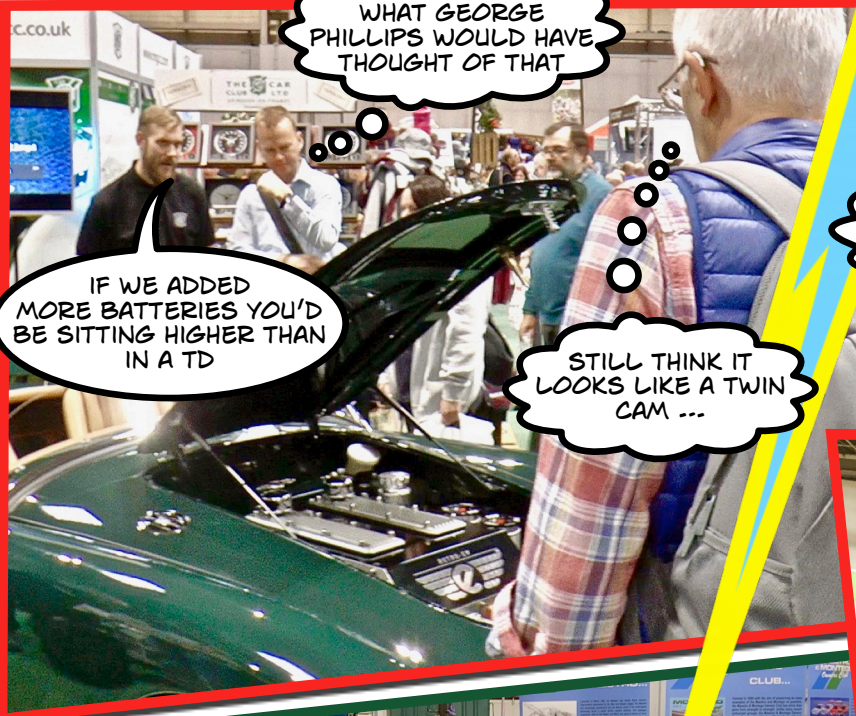

## CAPTAIN CASTOR HAS SEEN THE FUTURE... AND IT'S ELECTRIC!

IT LOOKS LIKE A TWIN CAM TO ME ...

NO PHOTOS, I'VE HEARD ALL ABOUT YOU

WONDER WHAT GEORGE PHILLIPS WOULD HAVE THOUGHT OF THAT

IF WE ADDED MORE BATTERIES YOU'D BE SITTING HIGHER THAN IN A TD

STILL THINK IT LOOKS LIKE A TWIN CAM ...

THERE MUST BE AN APP FOR THIS

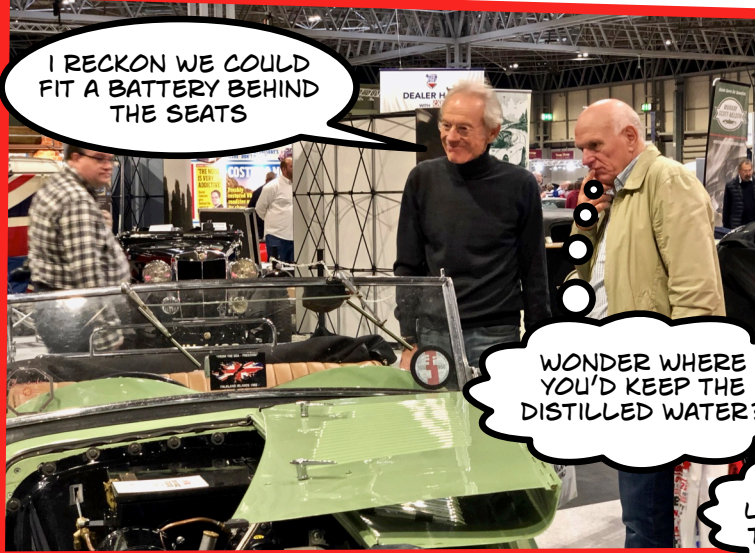

I RECKON YOU COULD GET A BIG BATTERY IN THAT BENTLEY BOAT TAIL

OH LOOK! A 1980S ELECTRIC OPERATED DASH!

NOW THAT'S WHAT I CALL A BATTERY

I RECKON WE COULD FIT A BATTERY BEHIND THE SEATS

WONDER WHERE YOU'D KEEP THE DISTILLED WATER?

WELL I SUPPOSE IF IT'S ELECTRICALLY POWERED, YOU'D BE GOING SO FAST YOU WOULDN'T NEED TO SEE WHO WAS BEHIND YOU

IF CECIL KIMBER HAD PUT AN ELECTRIC MOTOR IN A T TYPE, HE'D DEFINITELY HAVE KEPT TO CABLE BRAKES

I DON'T UNDERSTAND THAT AT ALL

NEVER MIND T TYPER, YOU CAN ALWAYS BUY A RETRO PETROL PUMP FOR YOUR GARAGE AND FEEL ALL NOSTALGIC
