

Northern Classic Trial

Saturday 14th February 2015

Setmurthy / Hobcarton / Whinlatter Forests

Run by Fellside auto Club with 60 entries – bikes inc some lovely classic ones and cars

This is Hill 9 in Whinlatter – 300 yards uphill and lots of people managed to get to the top, turning round was a little trickier ! I was marshalling with with Nick Grasse and David and Matt Alexander and we spent a lot of time pushing and pulling cars. Matt will no doubt email you his photo of fourteen of us trying to recover a Suzuki X90 which was trying to fall off the road.

MG J2

Liege

Alvis

Liege

Marlin

Liege – look how muddy it is getting

This couple are reversing back down the hill having got to the top. The lady (who was 70 if she was a day) was making sure there was enough weight on the front axle to make sure the car could steer

Austin 7

Ford Pop that made it all look easy

This is a Wasp, rear engine seemed to rev to 10,000 and would go anywhere. Because the ruts were so deep reversing down a 1 in 3 hill was the problem
