We have lunch at the Macclesfield General Store or go across the road to the Macclesfield Pub. We help each other out with technical problems and always have a lot of laughs.

Hi MG Enthusiast (UK),

The Book, 'MGCs Down Under', is now available.

**Description:**

The chapters cover a range of topics from the creation of the MGC, with a particular focus on the Australian connection, personal stories from MGC owners, Bruce Ibbotson's modification and RichardMixture's technical ramblings, to how the new MGC ended up Down Under in Australia, New Zealand and Papua. It also includes a list, with thumbnails photos, of MGCs in Australia and New Zealand - who knows, yourMGC might be there.

**What it costs:**

It's excellent value at AUD \$79 for the soft cover, AUD \$110 for the hard cover (only 100 copies available). Australia Post charges AUD \$58 postage to the UK.

**Quotes:**

"No other MG book that I have, has so much technical information about problems and the fixes required, it should become a reference book for MGC owners." Bruce, Aust.

"The second MGC book following Graham Robson's "Abington's Grand Tourer" to be published and it is a great read, informative, amusing and RichardMixture is a national treasure! If Graham was still alive, he would have been most pleased to see it." Barrie, UK.

"I want to say that I am amazed at what was done by the guys in Australia and New Zealand to improve the C. You really put together a fine book ..." Jeff, USA.
