## 12. ENGINE / NOISE POLLUTION

Engines must not be run before 0830 hours OR after 1830 hours.

Noise testing will take place at the entrance to the assembly area for all vehicles.

No vehicle should go on track without first having passed a noise test, which will be conducted by a MSUK licenced environmental scrutineer. This test will be conducted at the entrance to the assembly area.

## 13. PIT LANE

Please note the mandatory speed limit in the Pit Lane of **40 km/h** for Snetterton Saloons and **60 km/h** for all other series.

The Penalty Box is in the Pit Lane adjacent to Race Control.

Pit Lane – competitors must **not** exit the pit lane when the red light at the pit exit is illuminated.

#### 14. QUALIFYING

All cars will start qualifying from the Pit Lane.

Cars parked in the paddock will be required in the Assembly Area 20 minutes prior to their qualifying. **Noise testing** will be conducted on the entrance to the assembly area. On instruction from marshals, cars will proceed from the Assembly Area into the Pit Lane.

Please make yourself familiar with the location of the Assembly Area and Parc Fermé, before your first practice session.

#### 15. RACE START PROCEDURE

All competitors will proceed to the Assembly Area. On instruction from officials, all cars will proceed directly to the grid.

If the delay from the showing of the Green Flag to the start of the race takes more than four minutes the organisers reserve the right to reduce the race distance.

Rolling Start

- Snetterton Saloons

All other races will be standing start.

If the delay from the showing of the Green Flag to the start of the race takes more than four minutes, the organisers reserve the right to reduce the race distance.

All races will have a green flag lap.

#### 16. GRIDS

Grids will be in accordance with the track licence or Race Series Regulations.

In ideal conditions, the racing programme may be brought forward by up to 20 minutes and competitors should ensure that they are in their correct location in good time.

#### 17. COUNTDOWNS

For all races, the countdown will start at the 1-minute signal unless Championship Regulations specify a different procedure.

Please note that where possible the Countdown Boards, (**excluding** the 5 second Board used for standing starts) will be displayed on the Start Line Gantry Messaging Board – see pictures below.

Should technical difficulties prevent the use of the Gantry Messaging Board, the Starter will display boards from the Pit Wall.

For avoidance of doubt on standing starts, once all cars have returned to the grid at the end of the Green Flag lap, **the 5 second board will be displayed by the Starter from the Pit Wall** (not the overhead gantry pictured above). The red starting lights to the left of the Gantry Messaging Board will then be switched on **and the race starts when the red lights are switched off**.

#### 18. SAFETY CAR

The Clerk of the Course has the option to deploy a Safety Car in all qualifying and races. If required immediately after a race start, the Safety Car will be deployed from the exit of Turn 12. At all other times the Safety Car will join the circuit from the Pit Lane exit. It will always leave the circuit by entering the Pit Lane.

#### 19. LIVE SNATCH

Cars may be removed from the gravel traps under local Yellow Flags/Lights.

#### 20. END OF PRACTICE AND RACE PROCEDURE

At the end of each practice or race all cars must slow down after taking the Chequered Flag and leave the circuit by entering the Pit Lane and turning RIGHT into the Parc Fermé just beyond Race Control. Winners will proceed on foot to the Podium for presentations.

All competitors will remain under Parc Fermé conditions until advised by the Scrutineers.

For races of time duration, the Chequered Flag will be shown to the race leader the first time he passes the finish line after the time has elapsed unless specified otherwise in Championship Regulations.

#### 21. RED FLAGS

Any category generating a Red Flag may be placed at the end of the programme subject to time remaining available.

#### 22. TRACK LIMITS

At this event infringements of 'track limits' as defined by Motorsport UK Regulation Q12.21.2 can be detected by an automatic system that will identify the offending car and produce a photograph of the infringement.

This photographic evidence will be considered as a fact and may be used by the Clerk of the Course for judicial procedures in accordance with Motorsport UK Regulations.

The above mechanism for such infringements does not preclude from marshals, officials and Judges of Fact from reporting infringements.

**Please ensure you are aware of the definition change to the track limits regulations which came into effect on 01/06/2023**

#### 23. CONTROL FLAGS

Control flags (Black/White, Black/Orange etc) with car numbers may be shown from the control line on drivers right at the line.

The same information may also be shown from electronic panels displayed alongside the start lights in addition to or as an alternative to the flags on the line.

#### 24. RESULTS

Results of Qualifying and Races can be found on the virtual notice board on the MSVR website (<https://www.msvr.co.uk/car>) where they will be available once any outstanding judicial matters have been resolved

#### 25. JUDGES OF FACT

Judges may be appointed in accordance with Motorsport UK Q3.1.

Timekeepers: To declare the individual lap times and the order in which the cars cross the timing line throughout the competition.

Scrutineers: In addition to the Championship/Series Eligibility Scrutineers, eligibility may be checked by a member of the Motorsport UK Technical Commission, as listed in the Motorsport UK Officials' Yearbook Appendix 5(d).

#### 26. TIMING

All competitors are required to use an AMB TranX 260, AMB MYLAPS X2 or MYLAPS TR2 Racing transponder. This can be either direct or battery powered. Transponders can be purchased from TSL at [www.tsl-timing.com](http://www.tsl-timing.com) in advance of the meeting.

**You will no longer be able to hire a transponder on the day of the event, so please arrange for this with TSL in advance**, leaving plenty of time before your event. This can be done by using the link below:

[Transponder Hire - click here](#)

Competitors must supply the transponder number in advance of the event to their respective Race Series Coordinator or to MSVR.

#### 28. JUDICIAL PROCEDURES

Where possible paperwork will be handled electronically.

All paperwork must be lodged with the Secretary of the meeting who will then process this as appropriate.

All decisions will be posted on the virtual noticeboard, which can be found on the dedicated event area of MSVR website ([www.msvracing.co.uk](http://www.msvracing.co.uk)) At the discretion of the Judicial officials, Judicial Hearings may be recorded. Note that no competitor is allowed to record the proceedings (see Motorsport UK regulation C15).

#### 29. Turns 8, 9 and 10

Drivers who fail to negotiate the left hand bend Brundle (Turn 8) at the end of Bentley Straight and continue along the tarmac run-off area, should NOT turn around and re-join the track at the end of the straight. They should carry on to the back of the run-off area where a roadway permits them to re-join the track between Nelson (Turn 9) and the Bombhole (Turn 10). Drivers should obey any marshal's signals given to aid their re-joining of the track.

#### 30. SPECIAL CIRCUIT NOTICES

**All electronic scooters are banned from MSV venues and MSVR events.**

**Smoking and vaping are forbidden in the working areas of the venue, this includes but is not limited to, the pit lane, assembly area, garages and Parc Fermé.**

MSVR shall not be liable in the event of damage caused to vehicles being recovered from the track.

Any cables laid across the paddock MUST be covered with a proprietary cable cover. Tail lifts must not be left unattended in the 'mid' position. It is strongly recommended that extended tail lifts are fitted with warning lights.

Please be advised that you will need to show your Competitor/Marshal/Official e-ticket to be able to gain entry to the venue.
