## 1.6 Scoring:

1.6.1 Championship Competitors may count up to eight results towards the National Championship, which must include at least two results obtained from their “away region” (i.e. not their designated home region). Of the eight results, no more than six may be selected from each discipline, hillclimb or sprint. Venues which are designated as both North and South will count as an “away region”. A maximum of twelve scores to be allowed for the sole purpose of resolving ties (see 1.6.2).

- 1.6.1.1 The overall winner will be determined as the series winner with the highest total Class Ranking Percentage from their best eight scores in either region as defined in 1.6.1.
- 1.6.1.2 Region competitors must nominate a “home” series. Competitors may count up to six “home” Regional results towards that Region’s series award. No more than five may be selected from either discipline. A maximum of twelve scores to be allowed for the sole purpose of resolving ties (See 1.6.2)
- 1.6.1.3 The region winners will be determined as the competitors with the highest class ranking percentage as defined in 1.6.1.2.
- 1.6.1.4 For Groups 1 to 4, a list of model specific records and Model Target Times will be published at the start of the season for each venue in the championship calendar. Note that in Groups 3 and 4, the differentiation between MGF/TFs and ZRs with and without VVC engines is removed and a single Target Time for each model will be maintained (i.e. MGF/TF 1800cc and ZR 1800cc). For Groups 5 and 6, a single Target Time for each Group at each capacity split will be published at the start of the season for each venue in the championship calendar. All queries must be raised with the Championship Coordinator as per 1.6.3.
- 1.6.1.5 In the event of a more highly modified car having a Model Target Time that is more advantageous than the Group(s) below, that Model Target Time will be substituted for the Model Target Time of the lower Group. This Regulation applies to Groups 1 to 4 only and will not be applied to Groups 5 or 6.
- 1.6.1.6 Class Ranking Percentage will be allocated at each meeting in the following manner:
- Points will be scored against the Model Target Time.  
 $(\text{Model Target Time} / \text{Competitors Event Time}) \times 100 = \text{Class Ranking Percentage}$
- For example: Model Target Time = 110.00 seconds
- Example 1: Competitors Event Time is 108.00 seconds, then the score is  $(110.00 / 108.00) \times 100 = 101.85$  Class Ranking Percentage
- Example 2: Competitors Event Time is 104.99 seconds then the score is  $(110.00 / 104.99) \times 100 = 104.77$  Class Ranking Percentage
- Example 3: Competitors Event Time is 113.47 seconds, then the score is  $(110.00 / 113.74) \times 100 = 96.94$  Class Ranking Percentage
- The maximum Class Ranking Percentage that will be recorded for Championship scoring will be 102%. In Example 2 above, the score will be 102.00 points.
- 1.6.1.7 A record will be deleted after ten years if it has not been achieved by any competitor within that period. Where the data exists, a new Model Target Time will be created from the model records set within the ten-year time limit. Where no data exists, Regulations 1.6.1.8 and 1.6.1.9 will apply.
- 1.6.1.8 For venues where no model records exist or venues with limited history of model event results (i.e. those with fewer than four model event results), Model Target Times will be calculated retrospectively based on the event times. The target shall be set at 95% of the fastest recorded event time, potentially attracting a maximum score of 95.00 points (see 1.6.1.9). Once three model event results have been recorded for the venue, the Model Target Time shall be set at 100% of the fastest of the model’s three event times. Model records may only be set at designated Championship rounds.
- 1.6.1.9 In all circumstances, Regulation 1.6.1.5 will be applied to ensure a more highly modified car does not have a Model Target Time that is more advantageous than the classes below. If this is the case, the Model Target Time from the lower class will be used to calculate the event score.
- 1.6.2 In the event of a tie, the winner of an award will be determined from a count back procedure as follows:

National Championship: If a competitor's score is derived from an equal number of events of each discipline, that competitor's 9<sup>th</sup>, 10<sup>th</sup>, etc. best scores for each discipline will be added progressively, alternating between sprints and hillclimbs, until the tie is resolved. The competitor may select which type of event to count first. If a competitor's score is derived from a different number of each type of event, his 3<sup>rd</sup> and 4<sup>th</sup> best scores of the deficient discipline, then 5<sup>th</sup> best score of each event type will be added progressively. The competitor may choose which 6<sup>th</sup> best score, sprint or hillclimb, to add first. No more than twelve events will be allowed for this procedure. If there is still a tie, the trophy will be awarded jointly.

Regional Series: If a competitor's score is derived from an equal number of events of each discipline that competitor's 5<sup>th</sup> and 6<sup>th</sup> best scores for each discipline will be added progressively, alternating between sprints and hillclimbs, until the tie is resolved. The competitor may select which type of event to count first. If a competitor's score is derived from a different number of each type of event, his 4<sup>th</sup> and 5<sup>th</sup> best scores of the deficient discipline, then 6<sup>th</sup> best score of each event type will be added progressively. The competitor may choose which 6<sup>th</sup> best score, sprint or hillclimb, to add first. No more than twelve events will be allowed for this procedure. If there is still a tie, the trophy will be awarded jointly.

1.6.3 A set of Model Target Times will be published at least four weeks prior to the first event in the Calendar. Any appeal against a Model Target Time must be registered not less than one week prior to the first event on the Calendar, after which Model Target Times will be valid for the remainder of the season.

1.6.4 Championship Points Appeal: NCR 2.5.2.
